

**BSV BioScience GmbH - our field of expertise:** The production and development of drugs and active ingredients from natural origins.

**Our success:** Today, BSV BioScience GmbH is one of the leading providers in the field of infertility treatment. As a subsidiary of the Indian pharmaceutical company Bharat Serums & Vaccines Ltd., we operate a state-of-the-art GMP-certified production facility for the manufacture of biological active ingredients at our site in Baesweiler.

Currently we are looking for the next possible date for a

## **Process Development Scientist (Purification process development) (m/f/d)**

### **Your responsibility:**

- Manage the purification and formulation process of various natural therapeutic proteins
- Conduct purification process development and formulation development experiments (e.g. for single dose and multidose lyo & liquid products)
- Develop processes, scale up, tech transfer and manufacturing process support
- Documentation of experiments, result and findings
- Maintain instruments (process chromatography systems such as AKTA, tangential flow filtration equipment, etc.) and troubleshoot instrumental/experimental problems
- Upkeep of all required materials, instruments, logs and calibration, etc.

### **We expect:**

- University degree in science or technology in disciplines of Life Science, Biotechnology, Biochemistry, Bioprocess technology, etc.
- At least 1-3 years of industry experience in related fields like therapeutic protein purification process development and formulation development
- Experience in process development with urine based therapeutic proteins is a plus
- Very good knowledge and hands-on experience in carrying out analytical techniques required during purification experiments
- Very good 'team player' quality and communication skills
- Fluency in English; German language skills as a plus

### **We offer:**

- Active co-development of BSV BioScience GmbH towards a leading supplier of API and pharmaceutical formulation
- International collaboration within the company group
- A motivated team of technical and managerial staff and specialists (m/f/d)
- Attractive remuneration, 38-hour week and a lot of creative freedom
